EDUCATION

Tashkent University of Information and Technology (TUIT)

Bachelor of Economics and Management in the field of Information and Communication

IELTS Score

7.0

PROFESSIONAL EXPERIENCE

Attended Frontend Web Developer course in Najot Talim

Tashkent, Uzbekistan (On-Site) · Sep 2024 – May 2025

- Designed and developed responsive, scalable, and accessible web interfaces using React, TypeScript, Javascript, CSS, SASS and Tailwind CSS, ensuring seamless user experiences across devices.
- Integrated RESTful APIs and third-party services (including Firebase authentication) to deliver dynamic, data-driven functionality.
- Collaborated closely with backend developers, UI/UX designers and project stakeholders to implement end-to-end solutions aligned with business goals.

Worked at Automatic Technology Solutions LLC

Karshi, Uzbekistan (Hybrid) · Full-time · May 2025 – August 2026

Frontend Web Developer — May 2025 – May 2026

- Built and maintained responsive, cross-browser web interfaces with React, TypeScript, JavaScript, and Tailwind CSS.
- Integrated REST APIs and third-party services to deliver dynamic, data-driven functionality.
- Translated Figma designs into pixel-accurate, mobile-friendly UI, ensuring consistent design and strong user experience.
- Worked in an agile team using Git and GitHub for version control and collaborative development.

Frontend Software Engineer — May 2026 – August 2026

- Architected and shipped production web applications using React, Next.js, and TypeScript, focusing on performance, scalability, and maintainable component design.
- Led frontend implementation of key features end-to-end, managing complex application state with Redux and RTK Query for efficient data fetching and caching.
- Collaborated with backend engineers and designers to integrate RESTful APIs and deliver responsive, accessible interfaces across devices.
- Championed code quality standards, reusable component patterns, and consistent UI with Tailwind CSS.

PROJECTS

FaceID Attendance CRM (TimePro) | React, TypeScript, Vite, Tailwind CSS, MUI, Radix UI, React Router, React Hook Form, Recharts, React DnD, i18next

Live: faceid.timepro.uz (website)

- Developed a facial-recognition employee attendance platform end-to-end, comprising an admin CRM dashboard and a multilingual marketing website, as frontend developer at Automatic Technology Solutions.
- Built the admin panel with modules for employees, devices, branches, shifts, workdays, absences, break time, and subscription plans, secured with protected authentication routes.
- Implemented interactive attendance analytics and dashboards with Recharts, and drag-and-drop interfaces using React DnD, styled with Tailwind CSS, MUI, and Radix UI.
- Delivered a responsive marketing site (Hero, Features, Pricing, Security, Telegram notifications) with four-language support (English, Russian, Uzbek, Malay) via i18next, optimized with Vite and gzip compression.

Real-Estate Sales CRM & Website (Bunyodkor House) | React, TypeScript, Vite, Tailwind CSS, MUI, Radix UI, React Router, React Hook Form, Recharts, React DnD, Leaflet, Axios

- Built a real-estate sales platform end-to-end — an internal CRM and a public property-listings website — as frontend developer at Automatic Technology Solutions.
- Developed the CRM with a full sales pipeline (leads, clients, sales) plus projects, tasks, a mortgage calculator, a 3D showroom, statistics dashboards, and user management with role-based authentication.
- Implemented automated contract (shartnoma) generation and printing with react-to-print, drag-and-drop pipeline boards using React DnD, and analytics dashboards with Recharts.
- Delivered a responsive listings website with map-based apartment search (Leaflet), advanced filters, project and home detail pages, and an investment section, integrating REST APIs via Axios.

ProfMedMax — Medical Clinic Website | *React, TypeScript, Vite, Tailwind CSS, Radix UI, i18next, Axios, Lottie, Recharts*

Live: profmedmax.uz (website)

- Developed a multilingual medical clinic website at Automatic Technology Solutions, presenting doctors, departments, and medical services with an online appointment request (waitlist) flow.
- Implemented full internationalization in five languages (English, Russian, Uzbek, Chinese, Arabic) with i18next, including right-to-left support for Arabic.
- Built reusable, accessible UI with Radix UI and Tailwind CSS, added Lottie animations, and created service search, FAQ, reviews, and statistics sections.
- Integrated REST APIs via Axios for doctors, service categories, appointment booking, and contact data.

Work & Study Abroad Platform (with Admin CMS) | *Next.js (App Router), TypeScript, Tailwind CSS, i18next*

Live: <https://ykii.uz/> (website)

- Built a multilingual work-and-study-abroad agency platform with Next.js (App Router) and TypeScript at Automatic Technology Solutions — a public marketing site plus an admin content-management panel.
- Developed the public site with program pages (Germany, Japan), a step-by-step application wizard, career and cooperation sections, dark/light theming, and animated, fully responsive layouts.
- Built an admin CMS with a dynamic, resource-based interface (list, form, and settings editors) to manage content such as news, testimonials, FAQs, and contact requests.
- Implemented five-language internationalization (English, Russian, Uzbek, Arabic, German) with full right-to-left support for Arabic.

FERUMS — Industrial Engineering Website (with Admin CMS) | *Next.js (App Router), TypeScript, Tailwind CSS*

Live: ferums.com (website)

- Built an SEO-first corporate website for an industrial-engineering company with Next.js (App Router) and TypeScript at Automatic Technology Solutions, including a config-driven admin CMS panel.
- Delivered statically generated (SSG) pages across products, projects, industries, services, careers, news, and sustainability, with bilingual EN/RU locale-in-path routing.
- Engineered first-class SEO: per-page metadata, hreflang and canonical alternates, Open Graph/Twitter cards, JSON-LD structured data, sitemap.xml, and robots.txt.
- Built a config-driven admin CMS (resource list/form, settings, and social editors) and polished UI — hero video, intro overlay, dark/light theming, and scroll-reveal animations.

CERTIFICATIONS

–**Meta Front-End Developer — Professional Certificate** — Coursera (Meta), May 2026 (9-course program; verify: coursera.org/verify/professional-cert/0U071BZMU6LE)

–**Frontend ReactJS (Standard)** — Najot Ta'lim, June 2025

–**IELTS Academic — Overall Band 7.0 (CEFR C1)** — British Council / IDP, July 2023

–**Five Million AI Leaders — Certificate of Completion** — Dubai Future Foundation × Ministry of Digital Technologies of Uzbekistan, March 2026 (<https://omp.aistudy.uz/certificate?id=e091401b-4486-47f1-3657-08de85ba2bc4>)

SKILLS

–**Languages:** JavaScript, TypeScript, HTML5, CSS3, SASS/SCSS, C++

–**Frameworks & Libraries:** React, Next.js (App Router), React Router, Redux Toolkit, RTK Query, Zustand, Context API, React Hook Form, Zod

–**UI & Styling:** Tailwind CSS, Material UI, Radix UI, shadcn/ui, Ant Design, Framer Motion, Recharts, Lottie, Leaflet (maps)

–**Web & Concepts:** REST APIs, Axios, Firebase, i18next (multilingual & RTL), SSR/SSG, SEO (metadata, hreflang, JSON-LD, sitemap), responsive & accessible design, UI/UX

–**Tools:** Git, GitHub, Vercel, Vite, Figma, VS Code, Postman, Swagger
